Independent Auditor's Report

To the Board of Park Commissioners
Park District of the City of Fargo
Fargo, North Dakota

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the aggregate discretely presented component units, and each major fund of the Park District of the City of Fargo ("the Park District"), as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the Park District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the aggregate discretely presented component units, and each major fund of the Park District of the City of Fargo, as of December 31, 2022, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Park District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Adoption of New Accounting Standard

As discussed in Notes 1 and 14 to the financial statements, the Park District has adopted the provisions of Government Accounting Standards Board (GASB) Statement No. 87, *Leases*, for the year ended December 31, 2022. Accordingly, a restatement has been made to the governmental activities, Valley Senior Services component unit, and Fargo Park District Foundation Component unit as of January 1, 2022, to restate beginning net position/fund balance. Our opinions are not modified with respect to this matter.

Change in Reporting Entity

As discussed in Note 14 to the financial statements, the Park District changed the components of the reporting entity during the year, and, accordingly, has restated the related fund balances and net position as of January 1, 2022. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Park District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Park District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Park District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control–related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis, schedule of employer’s share of net OPEB liability and related ratios, schedule of changes in total OPEB liability and related ratios, schedule of employer’s share of net pension liability, and schedule of employer’s pension contributions be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Park District’s basic financial statements. The component unit combining statement of net position and statement of revenues, expenditures, and changes in net position and Valley Senior Services modified accrual basis balance sheet and statement of revenues, expenditures and changes in fund balances – budget and actual are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with GAAS. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the listing of commissioners and officers but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated July 28, 2023, on our consideration of the Park District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Park District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Park District's internal control over financial reporting and compliance.

Fargo, North Dakota
July 28, 2023

This discussion and analysis presents the highlights of financial activities and financial position for the Park District of the City of Fargo ("the Park District"). The analysis focuses on significant financial issues, major financial activities and resulting changes in financial position, budget changes and variances from the budget, and specific issues related to funds and the economic factors affecting the Park District.

Management's Discussion and Analysis (MD&A) focuses on current year activities and the resulting changes. Please read it in conjunction with the Park District's financial statements.

Financial Highlights

The Park District's governmental net position increased by \$6,043,908 from multiple areas. The largest increase in revenues were related to capital grants and contributions for the construction of the Fargo Sports Complex.

Report Layout

The Park District's annual financial report consists of several sections. Taken together they provide a comprehensive financial look at the Park District. The components of the report include the following:

Management's Discussion and Analysis – This section of the report provides financial highlights, overview and economic factors affecting the Park District.

Basic Financial Statements – Includes Statement of Net Position, Statement of Activities, fund financial statements and the notes to the financial statements. Statements of Net Position and Activities focus on an entity-wide presentation using the accrual basis of accounting. They are designed to be more corporate-like in that all activities are consolidated into a total for the Park District.

- The Statement of Net Position focuses on resources available for future operations. In simple terms, this statement presents a snapshot view of the assets the community owns and deferred outflows of resources, the liabilities it owes and deferred inflows of resources, and the net difference. The net difference is further separated into amounts restricted for specific purposes and unrestricted amounts.
- The Statement of Activities focuses on gross and net costs of Park District programs and the extent to which such programs rely upon general tax and other revenues. This statement summarizes and simplifies the user's analysis to determine the extent to which programs are self-supporting and/or subsidized by general revenues.
- Fund financial statements focus separately on major governmental funds. Governmental fund statements follow the more traditional presentation of financial statements. The Park District's major governmental funds are presented in their own column. Budgetary comparison statements are presented for the General Fund.
- The notes to the financial statements provide additional disclosures required by governmental accounting standards and provide information to assist the reader in understanding the Park District's financial condition.

Required Supplementary Information – This is additional required disclosure of the funding progress of the Park District's OPEB liabilities in accordance with GASB Statement No. 75 and pension liabilities in accordance with GASB Statement No. 68.

Other Supplementary Information – Separate statements of net position and statements of revenues, expenses, and changes in net position are provided for readers desiring additional information on the Valley Senior Services, Fargo Park District Foundation and Valley Senior Services Foundation, which are discretely presented component units of the Park District.

Park District as A Whole

Statement of Net Position at December 31, 2022

During fiscal year 2022 the governmental activities net position increased by \$6,043,908 as shown on Table 2. The increase is from the net operating surplus. This net operating surplus is being held as a current asset.

Statement of Activities for the Year Ending December 31, 2022

The increase of net position as shown on the statement of activities, Table 2, is from revenues exceeding expenses. Revenues exceeded budgeted amounts due to increased contributions related to the Sports Complex.

A portion of the year-end net position is restricted for specific purposes. The restrictions represent legal or contractual limitations on how the assets may be expended. Within the governmental activities category restrictions are for debt service reserves and capital projects reserves.

Change in Net Position	<u>\$ 6,043,908</u>	<u>\$ 16,814,801</u>

Budgetary Highlights

The Park District's General Fund appropriations increased by approximately \$5,133,000 from prior year. The increase in appropriations is from increased mill levy value, increased intergovernmental revenue, and increased fees related to the reclassification of Courts Plus to a department of the General Fund. Actual General Fund revenues were higher than budget by \$2,287,910 and General Fund expenditures were higher than budget by \$121,454.

Capital Assets and Debt Administration

Capital Assets

As of December 31, 2022 the Park District has invested \$150,587,228 in capital assets, net of accumulated depreciation, as reflected in the following table, which represents a net increase (additions, deductions and depreciation) of \$37,241,167.

Table 3
Capital Assets at December 31, 2022 and 2021
(Net of Depreciation/Amortization)

	Governmental Activities	
	2022	2021, as restated
Land	\$ 32,516,000	\$ 32,516,000
Construction in Progress	38,850,913	1,548,155
Buildings	40,784,287	42,161,711
Improvements Other than Buildings	32,731,741	31,624,967
Machinery and Equipment	5,402,020	5,216,609
Right-to-Use Leased Assets	302,267	278,619
Total	\$ 150,587,228	\$ 113,346,061

The following table reconciles the change in capital assets. Additions include assets acquired or under construction at year-end. Reductions are for disposition of assets and depreciation.

Changes	Governmental Activities
Construction in Progress	\$ 37,302,758
Buildings	(1,377,424)
Improvements Other than Buildings	1,106,774
Machinery and Equipment	185,411
Right-to-Use Leased Assets	23,648
Total	\$ 37,241,167

Table 4
Change in Capital Assets

	Governmental Activities
Beginning Balance	\$ 113,346,061
Additions	40,692,826
Retirement	(28,848)
Depreciation	(3,422,811)
Ending Balance	\$ 150,587,228

Assets from governmental activities increased by \$37,241,167. Annual depreciation/amortization of \$3,422,811 decreased net capital assets. The majority of the capital asset additions were related to the Fargo Sports Complex project, which broke ground during 2022. For more detailed information on the Park District's capital assets refer to Note 7 of the notes to financial statements.

Debt Outstanding

As of year-end, the Park District had \$76,751,584 in debt outstanding compared to \$29,609,636 last year. The increase was due to the issuance of General Obligation 2022A Bonds for construction of the Sports Complex. \$5,194,062 of the debt outstanding at December 31, 2022, is due within one year.

	Totals	
	2022	2021, as Restated
Governmental Activities		
Notes payable	\$ 2,028,000	\$ 845,000
Financed purchases payable	2,483,564	2,997,303
Leases payable	307,006	281,559

 Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position
 December 31, 2022

Total Funds Balances - Governmental Funds		\$ 55,613,233
Amounts reported for governmental activities in the statement of net position are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds.		150,587,228
Compensated absences payable are not due and payable in the current period therefore are not reported as liabilities in the funds.		(400,406)
Accrued interest payable for long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds.		(425,925)
Property taxes and specials are not considered available for current financial resources and are therefore deferred in the funds. However, they are properly recognized as revenue in the entity-wide statements as soon as the levy has been certified.		13,742,725
Deferred outflows and inflows of resources related to pensions and OPEB are applicable to future periods and, therefore, are not reported in the funds.		4,607,390
Long-term liabilities are not due and payable in the current period and therefore are not reported as liabilities in the funds.		
Long-term liabilities at year-end consist of :		
Bonds, notes, leases, and special assessments payable	\$ (71,152,311)	
Unamortized bond premium	(5,198,867)	
Net pension liability	(12,567,582)	
Other post employment benefits payable	<u>(945,297)</u>	
		<u>(89,864,057)</u>
Total Net Position - Governmental Activities		<u><u>\$ 133,860,188</u></u>

Park District of the City of Fargo

Reconciliation of the Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended December 31, 2022

Net Change in Funds Balances - Total Governmental Funds		\$ 19,118,666
Amounts reported for governmental activities in the statement of activities are different because		
Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation/amortization expense. In the current period these amounts are:		
Capital outlay		40,692,826
Depreciation/amortization expense		(3,422,811)
The net effect of the disposal of capital assets is to decrease net position.		(28,848)
Property taxes and specials are not considered available for current financial resources and are therefore deferred in the funds. However, they are properly recognized as revenue in the statement of activities as soon as the levy has been certified.		
Current period balance	\$ 13,742,725	
Prior period balance	(15,403,949)	
Current year effect		(1,661,224)
In the statement of activities compensated absences are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amount paid).		
Current period balance	(400,406)	
Prior period balance	371,159	
Current year effect		(29,247)
Interest payable is reported in the government wide statements of net position but is not recorded in the governmental funds.		
Current period balance	(425,925)	
Prior period balance	130,007	
Current year effect		(295,918)
In the statement of activities OPEB liabilities are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used.		
Current period balance	(930,633)	
Prior period balance	857,981	
Current year effect		(72,652)
In the statement of activities the cost of pension benefits earned net of employee contributions is reported as pension expense. In the governmental funds, however, the contributions are reported as expense.		
Current period balance	(7,974,856)	
Prior period balance	6,830,673	
Current year effect		(1,144,183)
Debt proceeds are recognized as revenue in the governmental funds but not on the statement of net position. In the current period these amounts consist of:		
Bonds issued		(43,075,000)
Premium on bonds issued		(5,378,138)
Notes payable issued		(1,458,000)
Leases issued		(76,413)
Special assessments financed		(5,102,493)
Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities on the statement of net position. In the current current period these amounts consist of:		
Principal retirement on bonds, notes, leases, and special assessments		7,798,072
Amortization of bond discount		179,271
Change in Net Position of Governmental Activities		<u>\$ 6,043,908</u>

Note 1 - Purpose and Administration

The Park District of the City of Fargo (the "Park District") was created by resolution of the Board of Commissioners of the City of Fargo, Article 19-01 of the Revised Ordinance of 1965. The resolution accepts the provisions, benefits and all amendments of Sections 40-49-02 through 40-49-18, both inclusive, of the North Dakota Century Code. Accordingly, the Park District of the City of Fargo consists of a five-member board elected at regular municipal elections. It is empowered to exercise all powers relative to the operation, maintenance and management of sites or areas devoted to use and accommodation of the public. Such powers include the right to acquire property, construct or improve park property, pass ordinances necessary and requisite to carry into effect the powers granted to the Park Board Commissioners, issue negotiable bonds and borrow money to defray expenses.

Note 2 - Summary of Significant Accounting Policies**Reporting Entity**

For financial reporting purposes, the Park District's financial statements include all funds over which the Park Board exercises oversight responsibility. This includes such aspects as appointment of governing body members, designation of management, the ability to significantly influence operations and accountability for fiscal matters.

Component units are legally separate organizations for which elected officials of the primary government are financially accountable. The Park District may be financially accountable if it appoints a voting majority of the organization's governing body and is either:

1. able to impose its will on that organization or
2. there is potential for the organization to provide specific financial benefits to or impose financial burdens on the Park District. The Park District may be financially accountable if an organization is fiscally dependent on the Park District.

Based upon the above criteria, the financial statements of Valley Senior Services, Fargo Park District Foundation, and Valley Senior Service Foundation are discretely presented in the accompanying financial statements. The Park District is not includable as a component unit within another reporting entity.

Valley Senior Services – The Park District is accountable for fiscal matters of Valley Senior Services and designates management of the commission. Valley Senior Services provides services to senior citizens throughout the Red River Valley through a variety of different ways: delivering daily hot meals through Meals On Wheels, finding a sense of community and fostering new friendships at local senior centers, getting to and from appointments with transportation services, connecting seniors with supportive resources, and much more.

Fargo Park District Foundation – The Fargo Park District Foundation is a 501(c)(3) entity having separate legal standing from the Park District. The mission of the Foundation is to enhance the quality of life in the metro area through the development of modernized facilities, new programs and by offering great opportunities for all in the community. The Park District appoints two members of the organization’s governing board, a minority amount of the total amount of board members, and there is no fiscal dependence by the organization on the Park District. The Park District provides administrative services to the organization and does not charge for this assistance. One of the undertakings of the Foundation is to be the fundraising entity for the planned Fargo Parks Sports Complex, to be constructed, owned, and operated by the Park District. The Foundation does not meet the specific financial accountability criteria to be included as a component unit. However, management of the Park District, in their judgment, determined that it would be a benefit to the readers of the financial statements of the Park District to include the Foundation as a discretely presented component unit.

Valley Senior Services Foundation – The Valley Senior Services Foundation is a 501(c)(3) entity having separate legal standing from the discretely presented component unit of the Park District, Valley Senior Services. Valley Senior Services appoints two members of the organization’s governing board, a minority amount of the total amount of board members, and there is no fiscal dependence by the organization on Valley Senior Services. The Park District and Valley Senior Services provide administrative services to the organization and do not charge for this assistance. The Foundation does not meet the specific financial accountability criteria to be included as a component unit. However, management of the Park District, in their judgment, determined that it would be a benefit to the readers of the financial statements of the Park District to include the Foundation as a discretely presented component unit.

Government-Wide and Fund Financial Statements

The goal of government-wide financial statements is to present a broad overview of government’s finances. The basic statements that form the government-wide financial statements are the statement of net position and the statement of activities. These two statements report information on all of the non-fiduciary activities of the government. Generally, the effect of interfund activity has been removed from these statements.

The statement of activities reports gross direct expenses by function reduced by program revenues. This results in a measurement of net revenue or expense for each of the government’s activities. Direct expenses are those that are clearly identifiable with a specific function. Program revenues are directly associated with the function and include 1) charges for services and 2) operating or capital grants and contributions that are restricted to a particular function. Tax and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are prepared for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

The accounts of the Park District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounts for with a separate set of self-balancing accounts that comprise its assets, liabilities, deferred inflows of resources, fund balance, revenues, and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Measurement Focus, Basis of Accounting

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Park District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, intergovernmental revenue, permits, charges for services and investment income associated with the current fiscal period are all considered to be susceptible to accrual the major revenues that are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period to the extent they are collected in 60 days. All other revenue items are considered to be measurable and available only when the Park District receives cash.

The Park District reports the following major governmental funds:

General Fund – The general fund is the general operating fund of the Park District. It is used to account for all financial resources except those required to be accounted for in another fund.

Debt Service Fund – The debt service fund is used to account for annual payments of principal and interest on long-term general obligation debt.

Capital Projects Fund – The capital projects fund is used to account for financial resources used for the construction of major capital assets.

When resources from more than one category are available for use, it is the Park District's policy to use restricted resources first, then committed, then assigned, and lastly, unrestricted resources as they are needed.

Other Significant Accounting Policies

Budgets

The Park District follows these procedures in establishing the budgetary data reflected in the financial statements:

- At the August board meeting, the Finance Director submits to the Board of Park Commissioners a proposed operating budget for the calendar year commencing the following January 1. The operating budget includes proposed expenditures and the means of financing them.
- The final budget must be adopted on or before October 7 and submitted to the county by October 10.
- Budgets are prepared on a basis which is not materially different from the modified accrual (GAAP) basis.
- The legal level of control is at the fund level.
- Formal budgetary integration is employed as a management control device during the period for the general fund and Valley Senior Services.

Cash and Investments

Cash balances from all funds are combined and invested to the extent available in authorized investments. Earnings from such investments are allocated to the respective funds on the basis of applicable cash balance participation by each fund.

The Park District considers cash equivalents to be certificates of deposit, money market funds, and other highly liquid investments with original maturities of three months or less.

The Park District has restricted cash set aside with Valley Senior Services for deposits held at the Fargo-Moorhead Area Foundation in an endowment fund.

Accounts Receivables and Credit Policy

Accounts receivables are uncollateralized customer obligations due under normal terms requiring payment within 30 days from the invoice date. No allowance for uncollectible accounts has been recorded. After 30 days uncollected receivables are notified that services will no longer be provided for payment of delinquencies.

Should payment not be received after 180 days the account balance is turned over to a collection agency. The only receivables expected to be collected within one year are property taxes.

Pledges Receivable

Unconditional promises to give are recognized as revenues or gains in the period received as assets, decreases of liabilities, or expenses depending on the form of the benefits received. Conditional promises to give are recognized when the conditions on which they depend are substantially met. Until conditional promises to give are recognized as revenue, the amounts are reported a liability using the terminology "donations received in advance." When considered necessary, an allowance is recorded based on management's estimate of collectability including such factors as prior collection history, type of contribution, and the nature of fund-raising activity.

Prepaid Items

Certain cash payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

Inventories

The costs of inventory items are recognized as expenditures in governmental funds when used. The inventories are presented on an average cost basis.

Lease Receivables

Lease receivables are recorded by the Park District as the present value of future lease payments expected to be received from the lessee during the lease term, reduced by any provision for estimated uncollectible amounts. Lease receivables are subsequently reduced over the life of the lease as cash is received in the applicable reporting period. The present value of future lease payments to be received are discounted based on the interest rate the Park District charges the lessee.

Capital Assets

Capital assets are capitalized at historical cost or estimated historical cost for assets where actual historic cost is not available. Donated capital assets are recorded at acquisition value at the date of donation. Acquisition value is the price that would have been paid to acquire an asset with equivalent service potential on the date of the donation. The Park District maintains a threshold level of \$5,000 or more for capitalizing capital assets. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

Capital assets are recorded in the government-wide financial statements but are not reported in the fund financial statements. Capital assets are depreciated using the straight-line method over their estimated useful lives. Since surplus assets are sold for an immaterial amount when declared as no longer needed for public purposes by the Park District, no salvage value is taken into consideration for depreciation purposes.

Land is not depreciated. Useful lives vary as follows:

<u>Assets</u>	<u>Years</u>
Buildings	10-50
Improvements other than building	10-20
Vehicles	3-10
Equipment	5-10
Office equipment	5-10
Computer equipment	3-10

Right to use leased assets are recognized at the lease commencement date and represent the Park District’s right to use an underlying asset for the lease term. Right to use leased assets are measured at the initial value of the lease liability plus any payments made to the lessor before commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term, plus any initial direct costs necessary to please the lease asset into service. Right to use leased assets are amortized over the shorter of the lease term or useful live of the underlying asset using the straight-line method. The amortization period varies from 1 to 7 years.

Pensions

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the North Dakota Public Employees Retirement Systems (NDPERS) and the City of Fargo Employees’ Pension Plan and additions to/deductions from NDPERS and the City of Fargo Employees’ Pension Plan’s fiduciary net position have been determined on the same basis as they are reported by NDPERS and the City of Fargo Employees’ Pension Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Other Postemployment Benefits

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the North Dakota Public Employees Retirement System (NDPERS) and additions to/deductions from NDPERS’ fiduciary net position have been determined on the same basis as they are reported by NDPERS. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Under the provisions of the various employee contracts the Park District provides access to health coverage until age 65 if certain criteria are met. All premiums are funded on a pay-as-you-go basis. This amount was actuarially determined, in accordance with GASB Statement No. 75, at December 31, 2021.

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. The separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future period(s) and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The Park District has four items that qualify for reporting in this category. They are the contributions made to pension plans and other postemployment benefits after the measurement date and prior to the fiscal year-end, changes in the net pension liability not included in pension expense reported in the government-wide statement of net position and changes in the net OPEB liability not included in other postemployment expense reported in the government-wide statement of net position.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The Park District has four types of items that qualify for reporting in this category. The Park District reports unavailable revenues from property taxes and special assessments on the governmental funds balance sheet. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. Deferred inflows related to leases where the Park District is the lessor are reported in the governmental funds balance sheet and statement of net position. The deferred inflows of resources related to leases are recognized as an inflow of resources (revenue) on the straight-line basis over the term of the lease. The other items are changes in the net position liability and other postemployment benefits liability not included in pension expense and OPEB expense reported on the government-wide statement of net position.

Compensated Absences

All regular employees are entitled to vacation time with pay based upon length of continuous service. Annual vacation leave may not be accumulated in excess of 240 hours. Upon termination, employees are compensated for unused vacation leave.

Park District employees can accumulate up to 120 days of sick leave. Unused sick leave will not be paid on termination of employment and cannot be used as vacation.

Accumulated unpaid vested sick leave is accrued when incurred in government-wide financial statements. Such amounts, other than the current portion, are not accrued in governmental funds, but are recorded in the governmental activities in the government-wide statements.

Long-Term Liabilities

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities. Bond premiums and discounts are amortized over the life of the related bond issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Lease liabilities represent the Park District's obligation to make lease payments arising from the lease. Lease liabilities are recognized at the lease commencement date based on the present value of future lease payments expected to be made during the lease term. The present value of lease payments are discounted based on a borrowing rate determined by the Park District.

Fund Balance

The following classifications describe the relative strength of the spending constraints:

Nonspendable Fund Balance – amounts that are not in nonspendable form (such as inventory) or are required to be maintained intact.

Restricted Fund Balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed Fund Balance – amounts constrained to specific purposes by the Park District itself, using its highest level of decision-making authority (i.e., Board of Park Commissioners). To be reported as committed, amounts cannot be used for any other purpose unless the Board takes the same highest-level action to remove or change the constraint.

Assigned Fund Balance – amounts the Park District intends to use for a specific purpose. Intent can be expressed by the Board or by an official or body to which the Board delegates the authority.

Unassigned Fund Balance – amounts that are available for any purpose. Positive amounts are reported only in the general fund.

The Board of Park Commissioners establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). Assigned fund balance is established by the Board through adoption or amendment of the budget as intended for specific purpose (such as the purchase of fixed assets, construction, debt service, or for other purposes).

Net Position

Net position represents the difference between (a) assets and deferred outflows of resources and (b) liabilities and deferred inflows in the Park District's financial statements. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any long-term debt used to build or acquire the capital assets. Restricted net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the net amount of assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or the restricted component of net position.

Implementation of GASB Statement No. 87

As of January 1, 2022, the Park District adopted GASB Statement No. 87, *Leases*. The implementation of this standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The standard requires recognition of certain right to use leased assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The standard also requires lessors to recognize a lease receivable and deferred inflow of resources. The effect of the implementation of this standard on beginning net position/fund balance is disclosed in Note 14 and the additional disclosures required by this standard are included in Notes 7 and 8.

Note 3 - Stewardship, Compliance, and Accountability

Expenditures in Excess of Appropriations

Budget control for the general fund is established by its total appropriations. The general fund had expenditures exceeding appropriations in the amount of \$121,454 for the year ended December 31, 2022. These over expenditures were funded by greater than expected revenues and other financing sources and existing fund balance.

Note 4 - Cash and Investments

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to the Park District. At year-end, the Park District's deposits were covered by federal depository insurance or by collateral held in the Park District's name.

Cash Equivalents and Restricted Cash

At year-end, the Park District's Negotiated Savings are as per the schedule below. The bank balance is covered by federal depository insurance or by collateral held in the Park District's name. Valley Senior Services also has restricted cash of \$160,828 held at the Fargo-Moorhead Area Foundation in an endowment fund.

Investments

Statutes authorize the Park District to invest in a) bonds, treasury bills and notes, or other securities that are a direct obligation of, or an obligation insured or guaranteed by, the treasury of the United States, or its agencies, instrumentalities, or organizations created by an act of Congress, b) securities sold under agreements to repurchase written by a financial institution in which the underlying securities for the agreement to repurchase are of the type listed above, c) Certificates of Deposit fully insured by the federal deposit insurance corporation or the state, d) obligations of the state.

Cash and investments of the Park District (including the Component Units) at December 31, 2022, are as follows:

	<u>Carrying Value</u>	
Primary Government		
Cash		
Petty cash	\$ 7,250	
Demand Deposits and Negotiated Savings	<u>16,775,998</u>	\$ 16,783,248
Investments		
Certificates of Deposit	3,140,465	
US Government Obligations	43,812,396	
Municipal Bonds	<u>337,494</u>	<u>47,290,355</u>
Total primary government		<u>64,073,603</u>
Component Units		
Cash		
Petty cash	325	
Demand deposits	8,194,782	
Restricted Cash	<u>160,828</u>	8,355,935
Investments		
Certificates of Deposit		<u>519,407</u>
Total component units		<u>8,875,342</u>
Total		<u><u>\$ 72,948,945</u></u>

Interest Rate Risk

The Park District has a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

North Dakota Century Code limits the type of investments that can be purchased by the Park District. The investment must have pledged collateral or be backed by the Federal Government. Examples would be U.S. Treasury Bills, U.S. Treasury Notes, U.S. Treasury Strips, etc.

The Park District can enter into short and long-term investments. A short term will be defined as investments with a maturity of less than eighteen months. A long term will be defined as investments with a term in excess of eighteen months. All long-term investments will require approval by the Finance Committee prior to purchasing the investment. The Director of Finance is responsible for selecting and purchasing short term investments.

The following table summarizes the investment maturities of the investments of the Park District and its Component Units.

Investment Type	Fair Value	Maturities (in Years)	
		< 1	1 - 5
Primary Government			
Certificates of Deposit	\$ 3,140,465	\$ 3,140,465	\$ -
US Government Obligations	43,812,396	43,043,166	769,230
Municipal Bonds	337,494	337,494	-
Total Primary Government	<u>\$ 47,290,355</u>	<u>\$ 46,521,125</u>	<u>\$ 769,230</u>
Component Unit			
Certificates of Deposit	<u>\$ 519,407</u>	<u>\$ 519,407</u>	<u>\$ -</u>

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. As outlined above, Park District policy limits the type of investments allowed to reduce the amount of credit risk to the portfolio.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The Park District has no policy limiting the amount that can be invested in any one issuer.

Fair Value

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs. The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets in active markets that the Park District has the ability to access.

Level 2 – Inputs to the valuation methodology include:

1. Quoted prices for similar assets or liabilities in active markets;
2. Quoted prices for identical or similar assets or liabilities in active markets;
3. Inputs other than quoted prices that are observable for the asset or liability;
4. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology that are unobservable and significant to the fair value measurement.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table presents the assets measure at fair value on a recurring basis at December 31, 2022:

Investment Type	Total	Level 1	Level 2	Level 3
Primary Government				
Certificates of Deposit	\$ 3,140,465	\$ 3,140,465	\$ -	\$ -
US Government Obligations	43,812,396	43,812,396	-	-
Municipal Bonds	<u>337,494</u>	<u>-</u>	<u>337,494</u>	<u>-</u>
Total Primary Government	<u>\$ 47,290,355</u>	<u>\$ 46,952,861</u>	<u>\$ 337,494</u>	<u>\$ -</u>
Component Unit				
Certificates of Deposit	<u>\$ 519,407</u>	<u>\$ 519,407</u>	<u>\$ -</u>	<u>\$ -</u>

U.S. Government and Agency securities, money market mutual funds, and certificates of deposit classified in Level 1 of the fair value hierarchy are valued using prices quoted in active markets for these securities. Corporate bonds, municipal bonds, corporate commercial paper, bond and equity mutual funds classified in Level 2 of the fair value hierarchy are valued using techniques such as quoted prices for similar investments in active and inactive markets as well as inputs other than quoted prices that are observable for these assets.

Note 5 - Property Taxes

All real estate is assessed on the current value as of February 1 of each year. Property taxes are attached as an enforceable lien on the real estate and become due on January 1 of the year following the assessment date.

A five percent reduction of the taxes is allowed if the taxes are paid in full by February 15. Penalty and interest are added on March 1, if the first half of the taxes is not paid. Additional penalty and interest are added October 15 to those taxes which are not paid.

Taxes are collected by the Cass County Treasurer and remitted to the Park District on a monthly basis by the Cass County Auditor.

Note 6 - Pledges Receivable

Pledges receivable consist of promises to give from individuals, businesses, and private foundations. These donations are restricted for the construction of the Fargo Sports Complex, which began construction in 2022, and are reported on the financial statements of the Fargo Park District Foundation, a discretely presented component unit. At December 31, 2022, total pledges committed and received are as follows:

Pledges		
Cash	\$ 13,798,500	
In-kind	<u>8,055,800</u>	\$ 21,854,300
Less: Cash and In-Kind Pledges Received Through December 31, 2022		<u>(4,435,130)</u>
Outstanding Commitments/Pledges Receivable at December 31, 2022		<u><u>\$ 17,419,170</u></u>

Subsequent to year-end and as of the date these financial statements were available to be issued, an additional \$445,000 of pledges have been made to the Fargo Park District Foundation in support of the Fargo Sports Complex.

Revenue is recognized on these pledges when all eligibility requirements are met, provided that the promise is verifiable and the resources are measurable and probably of collection. Certain pledges have purpose restrictions and/or time requirements and in those instances, the pledge amounts are reported as donations received in advance. As of and for the year ended December 31, 2022, the following is the recognition of the pledges receivable on the financial statements of the Fargo Park District Foundation:

Total Pledges	\$ 21,854,300
Revenue Recognized Through December 31, 2022	<u>(8,920,880)</u>
Unearned Revenue Related to Pledges as of December 31, 2022	<u><u>\$ 12,933,420</u></u>

Note 7 - Capital Assets

Capital asset activity for the year ended December 31, 2022 is as follows:

	Balance January 1, 2022, as restated	Additions	Deletions	Balance December 31, 2022
Governmental Activities				
Capital assets, not being depreciated/amortized				
Land	\$ 32,516,000	\$ -	\$ -	\$ 32,516,000

Note 8 - Leases

Lessor Activities

The Park District has accrued a receivable for land for parking spaces. The remaining receivable for these leases was \$55,227 for the year ended December 31, 2022. Deferred inflows related to this lease were \$55,227 as of December 31, 2022. Interest revenue recognized on this lease was \$1,919 for the year ended December 31, 2022. Principal receipts of \$31,948 were recognized during the fiscal year. The interest rate on the lease was 2.64%. Final receipt is expected in fiscal year 2024.

The Park District has also entered into a lease for restaurant space. The agreement calls for payments that are completely variable and therefore was not included in lease receivable or deferred inflow of resources for leases. These variable payments are a result of the underlying lease measured not on a fixed rate, but rather variable due to the underlying payments derived from a percentage of sales. A total of \$53,748 was recognized as revenue from these variable payments for the year ended December 31, 2022.

The Fargo Park District Foundation, a component unit of the Park District, has accrued receivables for signage and naming rights to various components of the Fargo Sports Complex, which remains under construction as of December 31, 2022. The remaining receivable for these leases was \$8,700,999 for the year ended December 31, 2022. Deferred inflows related to this lease were \$9,908,635 as of December 31, 2022. Interest revenue recognized on these leases was \$89,697 for the year ended December 31, 2022. Principal receipts of \$1,039,303 were recognized during the fiscal year. The interest rate on the lease was 2.64%. Final receipt is expected in fiscal year 2032.

Lessee Activities

The Park District has entered into lease agreements for equipment, office equipment, land, and a building. The Park District is required to make principal and interest payments through 2028. The lease liability was valued using a discount rate of 2.64%, based on the District’s incremental borrowing rate at the inception of the leases. The total amount of right to use leased assets, and the related accumulated amortization on right to use leased assets was \$355,032 and \$52,765, as of December 31, 2022, respectively. The Park District recognized amortization expense of \$52,765 and interest expense of \$7,972 related to leases during the year ended December 31, 2022. Leases payable are liquidated by the general fund.

Remaining principal and interest payments on leases are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 59,617	\$ 7,487	\$ 67,104
2024	61,207	5,896	67,103
2025	62,840	4,263	67,103
2026	64,517	2,587	67,104
2027	53,769	911	54,680
2028	5,056	134	5,190
	<u>\$ 307,006</u>	<u>\$ 21,278</u>	<u>\$ 328,284</u>

Valley Senior Services, a component unit of the Park District, has entered into lease agreements for building space and office equipment. Valley Senior Services is required to make principal and interest payments through 2026. The lease liability was valued using a discount rate of 2.64%, based on the District’s incremental borrowing rate at the inception of the leases. The total amount of right to use leased assets, and the related accumulated amortization on right to use leased assets was \$224,113 and \$60,099, as of December 31, 2022, respectively. Valley Senior Services recognized amortization expense of \$60,099 and interest of \$5,277 related to leases during the year ended December 31, 2022. Leases payable of Valley Senior Services are liquidated by the Valley Senior Services fund.

Remaining principal and interest payments on leases of Valley Senior Services are as follows:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 59,871	\$ 3,634	\$ 63,505
2024	61,471	2,034	63,505
2025	42,870	458	43,328
2026	740	3	743
	<u>\$ 164,952</u>	<u>\$ 6,129</u>	<u>\$ 171,081</u>

Note 9 - Long-Term Debt

Refunding Improvement 2018A	10/02/18	05/01/43	3.00%-4.00%	2,290,000	2,030,000
Refunding Improvement 2019A	10/10/19	05/01/37	2.54%	635,000	540,000
Refunding Improvement 2021A	07/28/21	05/01/39	.45%-2.00%	1,245,000	1,155,000
General Obligation 2022A	04/07/22	05/01/42	4.00-5.00%	38,825,000	38,825,000
General Obligation Refunding 2022B	03/29/22	05/01/29	3.00-4.00%	4,250,000	4,250,000
				<u>\$ 59,495,000</u>	<u>\$ 55,570,000</u>

Future maturities on general obligations and refunding improvement bonds:

	Principal	Interest	Total
2023	\$ 2,710,000	\$ 2,109,941	\$ 4,819,941
2024	2,965,000	1,995,480	4,960,480
2025	3,070,000	1,873,020	4,943,020
2026	3,145,000	1,745,936	4,890,936
2027	2,420,000	1,632,606	4,052,606
2028 - 2032	12,460,000	6,670,516	19,130,516
2033 - 2037	13,465,000	4,265,273	17,730,273
2038 - 2042	15,200,000	1,505,026	16,705,026
2043	135,000	2,363	137,363
	<u>\$ 55,570,000</u>	<u>\$ 21,800,161</u>	<u>\$ 77,370,161</u>

Bonds payable are liquidated by the debt service fund.

During the year ended December 31, 2022, the Park District issued \$4,250,000 in refunding improvement bonds with interest rates ranging from 3.00% to 4.00%. The proceeds were used to refund \$4,450,000 of outstanding refunding improvement 2014 bonds which had an interest rate of 2.31%. The net bond proceeds were \$4,515,242 and included a bond premium of \$265,242. The refunding reduced the total debt service payments by \$186,118 and obtained an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$162,297.

Leases Payable

Leases payable consist of lease obligations as described in Note 8. Leases payable of the Park District are liquidated by the general fund. Leases payable of the component units are liquidated by Valley Senior Services.

Special Assessments

Uncertified special assessments of \$10,763,741 are due to the City of Fargo on various properties owned by the Park District. Principal and interest payments on the special assessments are recorded in the debt service fund.

The Park District had special assessments of \$5,102,493 levied in 2022 by the City of Fargo for multiple properties added by the Park District in 2022. Specials are due at various dates through 2044.

Compensated Absences

This amount consists of payments for vacation and sick pay benefits that will be paid out as discussed in Note 2. Governmental activity compensated absences are liquidated from the General Fund.

Letter of Credit

During the year ended December 31, 2022, the Fargo Park District Foundation obtained a Letter of Credit from a financial institution for a loan of up to \$25,000,000 to be used for construction costs of the Fargo Sports Complex. The loan would provide interim financing for the project costs that will be funded by pledges received by the Fargo Park District Foundation. The loan provides for advances limited to 90% of all eligible outstanding cash pledges receivable, with an interest rate of 0% and a 10-year term. No amounts were drawn on this loan during the year ended December 31, 2022.

Note 10 - Other Post-Employment Benefits

The Park District of the City of Fargo provides two other post-employment benefit plans. OPEB liabilities are liquidated from the General Fund. Disclosures relating to these plans are as follows:

North Dakota Public Employees Retirement System

A. Plan Description

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDAC Chapter 71-06 for more complete information.

NDPERS OPEB plan is a cost-sharing multiple-employer defined benefit OPEB plan that covers members receiving retirement benefits from the PERS, the HPRS, and Judges retired under Chapter 27-17 of the North Dakota Century Code a credit toward their monthly health insurance premium under the state health plan based upon the member's years of credited service. Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019 the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long term care plan premium expense. The Retiree Health Insurance Credit Fund is advance-funded on an actuarially determined basis.

Responsibility for administration of the NDPERS defined benefit OPEB plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

B. OPEB Benefits

The employer contribution for the PERS, the HPRS and the Defined Contribution Plan is set by statute at 1.14% of covered compensation. The employer contribution for employees of the state board of career and technical education is 2.99% of covered compensation for a period of eight years ending October 1, 2015. Employees participating in the retirement plan as part-time/temporary members are required to contribute 1.14% of their covered compensation to the Retiree Health Insurance Credit Fund. Employees purchasing previous service credit are also required to make an employee contribution to the Fund. The benefit amount applied each year is shown as "*prefunded credit applied*" on the Statement of Changes in Plan Net Position for the OPEB trust funds. Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC. Therefore, RHIC will become for the most part a closed plan. There were no other benefit changes during the year.

Retiree health insurance credit benefits and death and disability benefits are set by statute. There are no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Employees who are receiving monthly retirement benefits from the PERS, the HPRS, the Defined Contribution Plan, the Chapter 27-17 judges or an employee receiving disability benefits, or the spouse of a deceased annuitant receiving a surviving spouse benefit or if the member selected a joint and survivor option are eligible to receive a credit toward their monthly health insurance premium under the state health plan.

Effective July 1, 2015, the credit is also available to apply towards monthly premiums under the state dental, vision and long-term care plan and any other health insurance plan. Effective August 1, 2019 the benefit may be used for any eligible health, prescription drug plan, dental, vision, or long-term care plan premium expense. The benefits are equal to \$5.00 for each of the employee's, or deceased employee's years of credited service not to exceed the premium in effect for selected coverage. The retiree health insurance credit is also available for early retirement with reduced benefits.

C. OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

At December 31, 2022, the Park District reported a liability of \$445,800 for its proportionate share of the net OPEB liability. The net OPEB liability was measured as of June 30, 2022, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The Park District's proportion of the net OPEB liability was based on the Park District's share of covered payroll in the OPEB plan relative to the covered payroll of all participating OPEB employers. At June 30, 2022, the Park District's proportion was 0.371404 percent, which was an increase of 0.000005 percent from its proportion measured as of June 30, 2021.

For the year ended December 31, 2022, the Park District recognized OPEB expense of \$82,395. At December 31, 2022, the Park District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 10,570	\$ 3,834
Changes of Assumptions	112,292	-
Net Difference between Projected and Actual Earnings on OPEB Plan Investments	60,025	-
Changes in Proportion and Differences between Employer Contributions and Proportionate Share of Contributions	25,353	1,103
Employer Contributions Subsequent to The Measurement Date	<u>22,145</u>	<u>-</u>
Total	<u>\$ 230,385</u>	<u>\$ 4,937</u>

The \$22,145 reported as deferred outflows of resources related to OPEB resulting from Park District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the year ended December 31, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEBs will be recognized in OPEB expense as follows:

<u>Year Ended December 31,</u>	
2023	\$ 54,935
2024	52,136
2025	44,426
2026	51,806

D. Actuarial Assumptions

The total OPEB liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	N/A
Investment rate of return	5.75%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the MortalityPub-2010 Healthy Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 103% for males and 101% for females. Pub-2010 Disabled Retiree Mortality table (for General Employees), sex-distinct, with rates multiplied by 117% for males and 112% for females. Pub-2010 Employee Mortality table (for General Employees), sex-distinct, with rates multiplied by 92% for both males and females. Mortality rates are projected from 2010 using the MP-2019 scale.

The long-term expected investment rate of return assumption for the RHIC fund was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of RHIC investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Estimates of arithmetic real rates of return, for each major asset class included in the RHIC's target asset allocation as of July 1, 2021 are summarized in the following table:

Asset Class	Target Allocation	Real Rate of Return
Large cap domestic equities	33.00%	5.85%
Small cap domestic equities	6.00%	6.75%
Domestic fixed income	35.00%	0.50%
International equities	26.00%	6.25%

E. Discount Rate

The discount rate used to measure the total OPEB liability was 5.75%. The projection of cash flows used to determine the discount rate assumed plan member and statutory rates described in this report. For this purpose, only employer contributions that are intended to fund benefits of current RHIC members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries are not included. Based on those assumptions, the RHIC fiduciary net position was projected to be sufficient to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on RHIC investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

F. Sensitivity of the Park District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability of the Plans as of June 30, 2022, calculated using the discount rate of 5.39 percent, as well as what the RHIC net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.39 percent) or 1-percentage-point higher (6.39 percent) than the current rate:

	1% Decrease (4.39%)	Current Discount Rate (5.39%)	1% Increase (6.39%)
Employer's Proportionate Share of the OPEB Liability	\$ 569,037	\$ 445,800	\$ 342,346

Fargo Park District Health Insurance Plan

A. Plan Description

The Fargo Park District Health Insurance Plan is a single-employer plan, covering employees of the Park District and its component unit Valley Senior Services. The plan is administered by Blue Cross Blue Shield of North Dakota. Benefit terms are established and amended by the Board of Commissioners.

All employees are allowed to participate in the Park District's health insurance plan after retirement. This plan covers active and retired employees. At retirement, employees of the District may continue to participate in the Park District's group insurance plan that the employee was enrolled immediately prior to retirement. Participants must retire between the ages of 62 and 65, and benefit eligibility ends at retiree's age 65.

B. Benefits Provided

Eligible participants and their dependents have access to other post-employment benefits of blended medical premiums of \$639 for single coverage, \$1,138 for single + child coverage, and \$1,699 for family coverage. The implicit rate subsidy is only until Medicare eligibility. The Park District will make the same contribution for eligible participants who retire between the ages of 62 and 65 as it does for active employees. The Park District currently pays 75% of the premium for single, single plus dependent or family coverage. Park District contributions and coverage on the group's medical plan ceases once the retiree has reached age 65.

C. Employees Covered by Benefit Terms

At the valuation date of December 31, 2021, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefit payments	107
Active employees electing coverage	15
Active employees waiving coverage	0
	122

D. Total OPEB Liability

The Park District’s total OPEB liability was measured as of December 31, 2021, and was determined by an actuarial valuation as of December 31, 2021.

E. Actuarial Assumptions

The total OPEB liability in the December 31, 2021, measurement was determined as using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.25 percent
Discount Rate	1.84 percent
Healthcare Cost Trend Rates	6.20 percent in FY2022, gradually decreasing over several decades to an ultimate rate of 3.70 percent in FY2074 and later years.
Mortality	Pub-2010 General mortality tables projected with generational mortality improvement using scale MP-2021

The actuarial assumptions used in the December 31, 2021, measurements were based on assumptions for Main System (non-State employees) published in the July 1, 2021 NDPERS actuarial valuation and assumptions for City participants published in the 2015-2019 Actuarial Experience Study for the City of Fargo Employees' Pension Plan.

Since the plan is not funded by an irrevocable trust, the discount rate is equal to the index rate for 20-year, tax-exempt municipal bonds.

F. Changes in the Total OPEB Liability

Balance at January 1, 2022		\$	740,543
Changes from the Prior Year			
Service cost			83,289
Interest cost			16,477
Assumption changes			(158,191)
Differences between expected and Actual experience			(52,324)
Net Change			<u>(110,749)</u>
Balance at December 31, 2022		\$	<u>629,794</u>

G. Sensitivity of the Total OPEB Liability to Changes in Discount Rate and the Healthcare Cost Trends Rate

The following presents the total OPEB liability of the Park District, as well as what the Park District's total OPEB liability would be if it were calculated using a discount rate one percentage point lower and one percentage point higher than the current discount rate:

	<u>1% Decrease in Discount Rate</u>	<u>Discount Rate</u>	<u>1% Increase in Discount Rate</u>
Discount Rate	0.84%	1.84%	2.84%
Total OPEB Liability	\$ 670,417	\$ 629,794	\$ 589,881

The following presents the total OPEB liability of the Park District, as well as what the Park District's total OPEB liability would be if it were calculated using a discount rate one percentage point lower and one percentage point higher than the current healthcare trend rates:

	<u>1% Decrease in Healthcare Trend Rate</u>	<u>Selected Healthcare Trend Rate</u>	<u>1% Increase in Healthcare Trend Rate</u>
Medical Trend Rate	5.20%, gradually decreasing to 2.70%	6.20%, gradually decreasing to 3.70%	7.20%, gradually decreasing to 4.70%
Total OPEB Liability	\$ 557,971	\$ 629,794	\$ 715,048

H. OPEB Expense and Deferred Outflows and Inflows of Resources Related to OPEB

For the year ended December 31, 2022, the Park District recognized OPEB expense of \$60,010. At December 31, 2022, the Park District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference Between Expected and Actual Liability	\$ -	\$ 71,802
Changes of Assumptions	37,772	235,143
Contributions Between Measurement Date and Reporting Date	3,406	-
Total	\$ 41,178	\$ 306,945

The \$3,406 reported as deferred outflows of resources arising from contributions between the measurement date and reporting date will be recognized as OPEB expense in the year ended December 31, 2023. Other amounts reported as deferred inflows and outflows of resources related to OPEB will be recognized in the OPEB expense as follows:

Years Ended December 31,	OPEB Expense Amount
2023	\$ (39,756)
2024	(39,756)
2025	(39,756)
2026	(42,009)
2027	(40,280)
Thereafter	(67,616)

Total of All OPEB Plans

OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense for all OPEB plans in which the Park District participates are included in the financial statements as follows:

	Primary Government <u>Governmental</u> <u>Activities</u>	Component Unit <u>Valley Senior</u> <u>Services</u>	<u>Total</u>
OPEB Liability			
NDPERS	\$ 445,800	\$ -	\$ 445,800
Fargo Park District	<u>499,497</u>	<u>130,297</u>	<u>629,794</u>
	<u>\$ 945,297</u>	<u>\$ 130,297</u>	<u>\$ 1,075,594</u>
Deferred Outflows of Resources			
NDPERS	\$ 230,385	\$ -	\$ 230,385
Fargo Park District	<u>32,658</u>	<u>8,520</u>	<u>41,178</u>
	<u>\$ 263,043</u>	<u>\$ 8,520</u>	<u>\$ 271,563</u>
Deferred Inflows of Resources			
NDPERS	\$ 4,937	\$ -	\$ 4,937
Fargo Park District	<u>243,442</u>	<u>63,503</u>	<u>306,945</u>
	<u>\$ 248,379</u>	<u>\$ 63,503</u>	<u>\$ 311,882</u>
OPEB Expense			
NDPERS	\$ 82,395	\$ -	\$ 82,395
Fargo Park District	<u>47,595</u>	<u>12,415</u>	<u>60,010</u>
	<u>\$ 129,990</u>	<u>\$ 12,415</u>	<u>\$ 142,405</u>

Note 11 - Defined Benefit Pension Plans

The Park District of the City of Fargo contributes to two defined pension plans, the City of Fargo Pension Plan, a cost-sharing, multi-employer defined benefit plan administered by the City of Fargo, and the Main System of the North Dakota Public Employees Retirement System (NDPERS), a cost-sharing, multi-employer defined benefit plan administered by the North Dakota Public Employees Retirement System. On April 1, 2008, all Park District full-time benefited employees were allowed to remain with the City of Fargo Pension Plan or enroll with the North Dakota Public Employee Retirement System. All benefited employees hired after March 31, 2008, are required to participate with North Dakota Public Employee Retirement System. Pension liabilities are liquidated from the General Fund for governmental activities. Disclosures relating to these plans are as follows:

City of Fargo Pension Plan

A. Plan Description

The Park District's pension plan is a cost-sharing multiple employer public employee retirement system. The plan, the Fargo City Employees' Pension Plan, is integrated with social security and, therefore, is considered a supplemental plan. The plan administrator is the City of Fargo. All full-time Park District employees hired before April 1, 2008, are eligible for participation in the pension plan.

As of January 1, 1986, participation in the plan was mandatory for new hires. Prior to this, employees were given the option to participate. At April 1, 2008, full-time benefited employees were given the option to continue with the City of Fargo Pension Plan or enroll in the NDPERS main system.

Management of the plan consists of 7 members; the Mayor of the City of Fargo, City Attorney of the City of Fargo, City Auditor of the City of Fargo, Director of Finance of the City of Fargo, and 4 at large members elected by all plan members. Elected members serve 2-year terms.

B. Benefits Provided

Employees under a discounted annuity formula may be eligible for early, normal or disability retirement. The plan permits early retirement at age 55. Normal retirement age for full benefits is age 65 or when an employee's age plus their years of service as a full-time city employee reaches a sum of 90.

Employee death benefits of \$20,000 are paid to a designated beneficiary for a participant who dies prior to retirement. If a participant dies after retirement, the designated beneficiary will receive a \$3,000 death benefit.

All participants are eligible for a full refund of their contributions plus interest at 5%. Upon termination of employment prior to retirement age, participants may elect a deferred vested benefit to begin between ages 55-65 or a lump sum payment. Lump sum settlements are allowable up to age 55. Lump sum payments are computed as the greater of the actuarial value of plan assets or the "cash balance" in their plan account. The cash balance consists of the employee contributions, plus one-half of the employer's contribution since January 1, 1990, plus interest at 5%.

Benefit provisions are established under the authority of the City Commission.

C. Contributions

Participant employees contribute to the plan at a rate of 6.5% of salary and the employers contribute at a rate of 8.0% of regular salary for all employees including non-participants. The contribution rates are established by local ordinance, and the employer contribution rate set by the Fargo City Commission. Costs of administering the plan are financed by the employer and employee contributions, and by the Plan's investment earnings. For the year ended December 31, 2022, contributions totaled \$66,186 and \$83,508 for employees and the Park District, respectively.

Detailed information about the contributions to the City of Fargo Pension Plan is available in a separately issued City of Fargo Pension Plan report.

D. Pension Costs

At December 31, 2022, the Park District reported a liability of \$1,176,112 for its proportionate share of the City of Fargo Pension Plan’s net pension liability. The net pension liability was measured as of December 31, 2022 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of December 31, 2021. The Park District's proportion of the net pension liability was based on the Park District's contributions received by the City of Fargo Pension Plan during the measurement period for employer payroll paid dates from January 1, 2022 through December 31, 2022, relative to the total plan contributions received from the City of Fargo. The Park District's proportionate share was 11.27 percent at the end of the measurement period and 11.23 at the beginning of the measurement period, an increase of 0.04 percent from December 31, 2021.

For the year ended December 31, 2022, the Park District recognized pension expense of \$162,400 for its proportionate share of the City of Fargo Pension Plan’s pension expense. At December 31, 2022, the Park District reported its proportionate share of the City of Fargo Pension Plan’s deferred outflows of resource and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ -	\$ 2,592
Changes of Assumptions	78,949	11,597
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	866,969	-
Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions	<u>173,654</u>	<u>126,089</u>
Total	<u>\$ 1,119,572</u>	<u>\$ 140,278</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	
2023	\$ 62,487
2024	219,034
2025	330,871
2026	366,902

E. Actuarial Assumptions

The total pension liability in the December 31, 2022 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50%
Salary increases	2.50-5.00%, based on age
Investment rate of return	7.00%, net of investment expenses

For active members, inactive members and healthy retirees, mortality rates were based on the PubG-2010 General mortality tables with generational projection using scale MP-2021.

The actuarial assumptions used were based on the results of an actuarial experience study completed in 2020. They are the same as the assumptions used in the December 31, 2021 funding actuarial valuation for the City of Fargo Pension Plan.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These asset class estimates are combined to produce the portfolio long-term expected rate of return. This is accomplished by weighting the expected future real arithmetic rates of return by the current asset allocation percentage (or target allocation, if available); adjusting for the difference between arithmetic and geometric average returns; and adding expected inflation (2.50%). All results are then rounded to the nearest quarter percentage point.

The best-estimates of expected future asset class returns were published in the 2021 Survey of Capital Market Assumptions produced by Horizon Actuarial Services. These expected returns, along with expected asset class standard deviations and correlation coefficients, are based on Horizon's annual survey of investment advisory firms. The expected inflation assumption was developed based on an analysis of historical experience blended with forward-looking expectations available in market data.

Best-estimates of geometric real and nominal rates of return for each major asset class included in the pension plan's asset allocation as of the measurement date are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	42.00%	7.60%
International Equity	16.00%	7.30%
Emerging Markets Equity	7.00%	7.70%
Core Fixed Income	17.50%	3.90%
Investment Grade Corporate	8.75%	4.40%
High Yield	4.38%	5.00%
Emerging Markets Debt	4.37%	4.90%
Totals	100.00%	

F. Discount Rate

The discount rate used to measure the total pension liability was 7.00 percent as of December 31, 2022. The projection of cash flows used to determine the discount rate assumes that member and employer contributions will be made at rates equal to those based on the December 31, 2021, Actuarial Valuation Report. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer contributions that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments for current plan members as of December 31, 2022. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability as of December 31, 2022.

G. Pension Liability Sensitivity

The following presents the Park District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the Employer's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Employer's Proportionate Share of the Net Pension Liability (Asset)	\$ 1,871,167	\$ 1,176,112	\$ 577,865

H. Pension Plan Fiduciary Net Position

Detailed information about the City of Fargo Pension Plan’s fiduciary net position is available in a separately issued City of Fargo Pension Plan report. That report may be obtained by writing to the City of Fargo at 200 3rd St N, Fargo, North Dakota 58102; or by calling (701)-241-1333.

North Dakota Public Employee Retirement System

A. Plan Descriptions

The following brief description of NDPERS is provided for general information purposes only. Participants should refer to NDCC Chapter 54-52 for more complete information.

NDPERS is a cost-sharing multiple-employer defined benefit pension plan that covers substantially all employees of the State of North Dakota, its agencies and various participating political subdivisions. NDPERS provides for pension, death and disability benefits. The cost to administer the plan is financed through the contributions and investment earnings of the plan.

Responsibility for administration of the NDPERS defined benefit pension plan is assigned to a Board comprised of nine members. The Board consists of a Chairman, who is appointed by the Governor; one member appointed by the Attorney General; one member appointed by the State Health Officer; three members elected by the active membership of the NDPERS system, one member elected by the retired public employees and two members of the legislative assembly appointed by the chairman of the legislative management.

B. Benefits Provided

Pension Benefits

Benefits are set by statute. NDPERS has no provisions or policies with respect to automatic and ad hoc post-retirement benefit increases. Member of the Main System are entitled to unreduced monthly pension benefits beginning when the sum of age and years of credited service equal or exceed 85 (Rule of 85), or at normal retirement age (65). For members hired on or after January 1, 2016, the Rule of 85 was replaced with the Rule of 90 with a minimum age of 60. The monthly pension benefit is equal to 2.00% of their average monthly salary, using the highest 36 months out of the last 180 months of service, for each year of service. For members hired on or after January 1, 2020, the 2.00% multiplier was replaced with a 1.75% multiplier. The plan permits early retirement at ages 55-64 with three or more years of service.

Members may elect to receive the pension benefits in the form of a single life, joint and survivor, term-certain annuity, or partial lump sum with ongoing annuity. Members may elect to receive the value of their accumulated contributions, plus interest, as a lump sum distribution upon retirement or termination, or they may elect to receive their benefits in the form of an annuity. For each member electing an annuity, total payment will not be less than the members’ accumulated contributions plus interest.

Death and Disability Benefits

Death and disability benefits are set by statute. If an active member dies with less than three years of service for the Main System, a death benefit equal to the value of the member's accumulated contributions, plus interest, is paid to the member's beneficiary. If the member has earned more than three years of credited service for the Main System, the surviving spouse will be entitled to a single payment refund, life-time monthly payments in an amount equal to 50% of the member's accrued normal retirement benefit, or monthly payments in an amount equal to the member's accrued 100% Joint and Survivor retirement benefit if the member had reached normal retirement age prior to date of death. If the surviving spouse dies before the member's accumulated pension benefits are paid, the balance will be payable to the surviving spouse's designated beneficiary.

Eligible members who become totally disabled after a minimum of 180 days of service, receive monthly disability benefits equal to 25% of their final average salary with a minimum benefit of \$100. To qualify under this section, the member has to become disabled during the period of eligible employment and apply for benefits within one year of termination. The definition for disabled is set by the NDPERS in the North Dakota Administrative Code.

Refunds of Member Account Balance

Upon termination, if a member of the Main System is not vested (is not 65 or does not have three years of service), they will receive the accumulated member contributions and vested employer contributions, plus interest, or may elect to receive this amount at a later date. If the member has vested, they have the option of applying for a refund or can remain as a terminated vested participant. If a member terminated and withdrew their accumulated member contribution and is subsequently reemployed, they have the option of repurchasing their previous service.

C. Contributions

Member and employer contributions paid to NDPERS are set by statute and are established as a percent of salaries and wages. Member contribution rates are 7% and employer contribution rates are 7.12% of covered compensation. For members hired on or after January 1, 2020, member contribution rates are 7% and employer contribution rates are 8.26% of covered compensation

The member's account balance includes the vested employer contributions equal to the member's contributions to an eligible deferred compensation plan. The minimum member contribution is \$25, and the maximum may not exceed the following:

- 1 to 12 months of service - Greater of one percent of monthly salary or \$25
- 13 to 24 months of service - Greater of two percent of monthly salary or \$25
- 25 to 36 months of service - Greater of three percent of monthly salary or \$25
- Longer than 36 months of service - Greater of four percent of monthly salary or \$25

D. Pension Costs

At December 31, 2022, the Park District reported a liability of \$11,391,470 for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2022, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Employer's proportion of the net pension liability was based on the Employer's share of covered payroll in the Main System pension plan relative to the covered payroll of all participating Main System employers. At July 1, 2022 the Park District's proportion was 0.3955 percent, which was an increase of 0.0087 percent from its proportion measured as of July 1, 2021.

For the year ended December 31, 2022, the Park District recognized pension expense of \$1,769,029. At December 31, 2022, the Park District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Differences Between Expected and Actual Experience	\$ 59,422	\$ 217,597
Changes of Assumptions	6,812,267	4,223,228
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	416,925	-
Changes in Proportion and Differences Between Employer Contributions and Proportionate Share of Contributions	403,854	-
Employer Contributions Subsequent to the Measurement Date	<u>361,789</u>	<u>-</u>
Total	<u>\$ 8,054,257</u>	<u>\$ 4,440,825</u>

The \$361,789 reported as deferred outflows of resources related to pensions resulting from Employer contributions subsequent to the measurement date will be recognized as a reduction of net pension liability in the year ended December 31, 2023.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	
2023	\$ 992,270
2024	1,077,286
2025	110,218
2026	1,071,869

E. Actuarial Assumptions

The total pension liability in the July 1, 2022, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25%
Salary increases	3.5% to 17.75% including inflation
Investment rate of return	5.10%, net of investment expenses
Cost-of-living adjustments	None

For active members, inactive members and healthy retirees, mortality rates were based on the Sex-distinct Pub-2010 table for General Employees, with scaling based on actual experience. Respective corresponding tables were used for healthy retirees, disabled retirees, and active members. Mortality rates are projected from 2010 using the MP-2019 scale.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	30.00%	6.00%
International Equity	21.00%	6.70%
Private Equity	7.00%	9.50%
Domestic Fixed Income	23.00%	0.73%
International Fixed Income	0.00%	0.00%
Global Real Assets	19.00%	4.77%
Cash Equivalents	0.00%	0.00%

F. Discount Rate

For PERS, GASB Statement No. 67 includes a specific requirement for the discount rate that is used for the purpose of the measurement of the Total Pension Liability. This rate considers the ability of the System to meet benefit obligations in the future. To make this determination, employer contributions, employee contributions, benefit payments, expenses and investment returns are projected into the future. The current employer and employee fixed rate contributions are assumed to be made in each future year. The Plan Net Position (assets) in future years can then be determined and compared to its obligation to make benefit payments in those years. In years where assets are not projected to be sufficient to meet benefit payments, which is the case for the PERS plan, the use of a municipal bond rate is required.

The Single Discount Rate (SDR) is equivalent to applying these two rates to the benefits that are projected to be paid during the different time periods. The SDR reflects (1) the long-term expected rate of return on pension plan investments (during the period in which the fiduciary net position is projected to be sufficient to pay benefits) and (2) a tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate of return are not met).

For the purpose of this valuation, the expected rate of return on pension plan investments is 6.50%; the municipal bond rate is 3.69%; and the resulting Single Discount Rate is 5.10%.

G. Pension Liability Sensitivity

The following presents the Park District's proportionate share of the net pension liability calculated using the discount rate of 5.10 percent, as well as what the Park District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.10 percent) or 1-percentage-point higher (6.10 percent) than the current rate:

	1% Decrease (4.10%)	Current Discount Rate (5.10%)	1% Increase (6.10%)
Employer's Proportionate Share of the Net Pension Liability	\$ 15,035,956	\$ 11,391,470	\$ 8,399,472

H. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued NDPERS financial report. The report may be obtained on the internet at www.nd.gov/ndpers/employers/gasb-info.html; by writing NDPERS at 400 E Broadway Ave Suite 505, PO Box 1657, Bismarck ND 58502-1657; or by calling (701) 328-3900 or 1-800-803-7377.

Total of All Pension Plans

Net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense for all pension plans in which the Park District participates are included in the financial statements as follows:

	Governmental Activities
Pension Liability	
City of Fargo	\$ 1,176,112
NDPERS	11,391,470
	\$ 12,567,582
Deferred Outflows of Resources	
City of Fargo	\$ 1,119,572
NDPERS	8,054,257
	\$ 9,173,829
Deferred Inflows of Resources	
City of Fargo	\$ 140,278
NDPERS	4,440,825
	\$ 4,581,103
Pension Expense	
City of Fargo	\$ 162,400
NDPERS	1,769,029
	\$ 1,931,429

Note 12 - Interfund Transfers

During the year ended December 31, 2022, the General Fund transferred \$3,700,945 to the Capital Projects Fund for current and future planned capital projects.

Note 13 - Medical Self-Insurance

The Park District is self-insured with respect to certain employee medical costs. The Park District implemented the self-insurance medical plan January 1, 2006. Terms of the plan include a stop-loss provision which limits the Park District’s liability to \$75,000 per individual or approximately \$1,468,000 in aggregate annually. The following is the activity for the year ended December 31, 2022:

Claims incurred but not reported at beginning of year		\$	117,000
Claims incurred			1,470,048
Claims paid			<u>(1,458,048)</u>
Claims incurred but not reported at end of year		\$	<u>129,000</u>

Note 14 - Restatement of Beginning Balances

Change in Reporting Entity

During the year ended December 31, 2022, the Park District elected to present the Courts Plus Fund, previously presented as a proprietary fund, as a department of the General Fund. The change of this fund to be presented as a department of the general fund constitutes a change in reporting entity and was done to better align with the internal reporting of these activities as well as improve consistency of reporting with the long-term goals of the organization.

The effects of the restatement on fund balance and net position as previously reported are as follows:

	Fund Balance/ Net Position December 31, 2021, as previously reported	Effect of Reclassification to Department within General Fund	Fund Balance/ Net Position January 1, 2022, as restated
	<u> </u>	<u> </u>	<u> </u>
General Fund	\$ 10,782,247	\$ (514,656)	\$ 10,267,591
Governmental Activities	126,338,964	1,480,256	127,819,220
Courts Plus Enterprise Fund	1,480,256	(1,480,256)	-

Adoption of New Standard

As of January 1, 2022, the Park District adopted GASB Statement No. 87, *Leases*. The implementation of this standard establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. The Statement requires recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. The standard also requires lessors to recognize a lease receivable and deferred inflow of resources. Beginning net position for the governmental activities, Valley Senior Services component unit, and the Fargo Park District Foundation component unit, and the fund balance for the General Fund, were restated to retroactively adopt the provisions of GASB Statement No. 87 as follows:

	Primary Government		Component Units	
	Governmental Activities	General Fund	Valley Senior Services	Fargo Park District Foundation
Net Position/Fund Balance at January 1, as Restated for Change of Reporting Entity	\$ 127,819,220	\$ 10,267,591	\$ 4,936,573	\$ 3,806,364
Recognition of right to use leased asset	278,619	-	224,113	-
Recognition of lease receivables	87,175	87,175	-	9,690,302
Recognition of lease liability	(281,559)	-	(229,180)	-
Recognition of deferred inflows from leases	(87,175)	(87,175)	-	(9,690,302)
Net Position/Fund Balance at January 1, 2022, as Adjusted	<u>\$ 127,816,280</u>	<u>\$ 10,267,591</u>	<u>\$ 4,931,506</u>	<u>\$ 3,806,364</u>

Note 15 - Risk Management

The Park District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Park District’s risk management program encompasses obtaining property and liability insurance through the North Dakota Insurance Reserve Fund, North Dakota Fire and Tornado Fund, and the State Bonding Fund. The Park District has not had any significant reduction in insurance coverage and the amounts of insurance settlements have not exceeded insurance coverage for any of the last three years. The participation of the Park District in the above funds is limited to payment of premiums. At the end of the year, the Park District did not have any significant claims.

The Park District also provides workers compensation insurance on its employees through the North Dakota Workforce Safety and Insurance. At the end of the year, the Park District believed the amounts paid on workers compensation would not change significantly from the amounts recorded.

Note 16 - Commitments

Construction

As of December 31, 2022, the Park District had construction in progress of \$38,850,913, relating to various Park District projects, the most significant being Phase I of the Fargo Sports Complex Project with construction in progress of \$35,465,561. Total remaining costs of completion for all projects is estimated to be approximately \$37.8 million, of which approximately \$37.4 million relates to Phase I of the Fargo Sports Complex project. These projects are expected to be completed in 2023, except for Phase I of the Fargo Sports Complex project, which is expected to be completed in 2024.

Note 17 - Joint Power Agreement with other Governmental Entities

The Park District has joint power agreements with the Fargo Public Schools for shared facilities. The Park District and School District have similar needs of facilities and have joined in the funding, maintenance and usage of facilities located in the City of Fargo. The joint power agreements provide easements to both governmental entities allowing for access and placement of capital assets. The agreements provide for shared costs of construction and maintenance, assignment of responsibility of maintenance and how the two entities will share in capital repair and replacement of the facilities covered by the joint power agreements.

Note 18 - Subsequent Events

Subsequent to year end, the Park District approved bids and entered into construction contracts for the Island Park Pool project and Phase II of the Sports Complex in the amounts of \$17,556,731 and \$38,463,293, respectively.

Notes to Schedule of Employer's Share of Net OPEB Liability and Schedule of Employer Contributions

Changes of Benefit Terms

Beginning January 1, 2020, members first enrolled in the NDPERS Main System and the Defined Contribution Plan on or after that date will not be eligible to participate in RHIC. Therefore, RHIC will become for the most part a closed plan. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2020.

Changes of Assumptions

The investment return assumption was updated from 6.50% to 5.75% beginning with the actuarial valuation as of July 1, 2022. All actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2021.

Notes to the Schedule of Changes in the Park District's Total OPEB Liability and Related Ratios

No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement 75.

2022

Assumption changes:

- The discount rate was changed from 2.00% to 1.84% based on updated 20-year municipal bond rates.
- Health care trend rates were reset to reflect updated cost increase expectations.
- Withdrawal, retirement, and salary scale rates for Main System (non-State employees) were updated from the rates used in the July 1, 2019 NDPERS actuarial valuation to the rates used in the July 1, 2021, NDPERS actuarial valuation.
- Medical per capita claims costs were updated to reflect recent experience.
- The inflation assumption was changed from 2.50% to 2.25% based on an updated historical analysis of inflation rates and forward-looking market expectations.

2021

Assumption changes:

- The discount rate was changed from 2.75% to 2.00% based on updated 20-year municipal bond rates.

2020

Assumption changes:

- The discount rate was changed from 3.71% to 2.75% based on updated 20-year municipal bond rates.
- Healthcare trend rates were reset to reflect updated cost increase expectations, including the repeal of the Affordable Care Act's Excise Tax on high-cost insurance plans.
- Medical per capita claims costs were updated to reflect recent experience, including an adjustment to reflect age/gender based risk scores published by the Society of Actuaries.
- The mortality projection scale was updated from MP-2017 to MP-2019 to reflect recently-published mortality rates.
- Withdrawal, retirement, and salary scale rates for City participants were updated to the rates used in the 2015-2019 Actuarial Experience Study for the City of Fargo Employees' Pension Plan.
- The percent of future retirees assumed to elect coverage at retirement changed from 100% to 90% to reflect recent plan experience.
- The inflation assumption was changed from 2.75% to 2.50% based on an updated historical analysis of inflation rates and forward-looking market expectations.

2019

Assumption changes:

- None

2018

Assumption changes:

- None

NDPERS**2022***Changes of benefit terms:*

The interest rate earned on member contributions decreased from 6.50 percent to 6.00 percent effective January 1, 2023 (based on the adopted decrease in the investment return assumption). New Main System members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System increased from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2020.

Changes of assumptions:

The investment return assumption was updated from 7.00% to 6.50% beginning with the actuarial valuation as of July 1, 2022. All other actuarial assumptions used in the actuarial valuation as of July 1, 2022 were based on an experience review for the period from July 1, 2014 to July 1, 2019, and were adopted for first use commencing with the actuarial valuation as of July 1, 2020.

2021*Changes of benefit terms:*

There have been no changes in plan provisions since the previous actuarial valuation as of July 1, 2020.

Changes of assumptions:

All actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2020.

2020*Changes of benefit terms:*

The interest rate earned on member contributions will decrease from 7.00 percent to 6.50 percent effective January 1, 2021 (based on the adopted decrease in the investment return assumption). New Main System members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System will increase from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2019.

Changes of assumptions:

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 valuation:

- The investment return assumption was lowered from 7.5% to 7.0%
- The assumed rate of price inflation was lowered from 2.5 to 2.25 percent for the July 1, 2020 valuation
- The assumed rate of total payroll growth was updated for the July 1, 2020 valuation
- Mortality table updates were made for the July 1, 2020 valuation

All other actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2019.

2019*Changes of benefit terms:*

The interest rate earned on member contributions will decrease from 7.25 percent to 7.00 percent effective January 1, 2020 (based on the adopted decrease in the investment return assumption). New Main System members who are hired on or after January 1, 2020 will have a benefit multiplier of 1.75 percent (compared to the current benefit multiplier of 2.00 percent). The fixed employer contribution for new members of the Main System will increase from 7.12 percent to 8.26 percent. For members who terminate after December 31, 2019, final average salary is the higher of the final average salary calculated on December 31, 2019 or the average salary earned in the three highest periods of twelve consecutive months employed during the last 180 months of employment. There have been no other changes in plan provisions since the previous actuarial valuation as of July 1, 2018.

Changes of assumptions:

The Board approved the following changes to the actuarial assumptions beginning with the July 1, 2019 valuation:

- The investment return assumption was lowered from 7.75% to 7.50%

All other actuarial assumptions and the actuarial cost method are unchanged from the last actuarial valuation as of July 1, 2018.

2018*Changes of benefit terms:*

None

Changes of assumptions:

Amounts reported in 2019 reflect actuarial assumption changes effective July 1, 2018 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

2017

Changes of benefit terms:

None

Changes of assumptions:

Amounts reported in 2018 reflect actuarial assumption changes effective July 1, 2017 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

2016

Changes of benefit terms:

None

Changes of assumptions:

Amounts reported in 2017 reflect actuarial assumption changes effective July 1, 2016 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

2015

Changes of benefit terms:

None

Changes of assumptions:

Amounts reported in 2016 reflect actuarial assumption changes effective July 1, 2015 based on the results of an actuarial experience study completed in 2015. This includes changes to the mortality tables, disability incidence rates, retirement rates, administrative expenses, salary scale, and percent married assumption.

City of Fargo Pension Plan**2022**

Changes of assumptions:

- None

2021

Changes of assumptions:

- The discount rate and long-term investment return assumption were updated from 7.25% to 7.00% to reflect updated capital market assumptions.
- The mortality improvement scale was updated from MP-2020 to MP-2021 to reflect the most recently published longevity assumptions.

2020

Changes of assumptions:

- Salary scale was changes from 2.5% to an age-based table based on historical experience and current pay scale information
- When actual spouse birthdates are not available, the spouse age assumption was updated to assume female beneficiaries are two years younger and male beneficiaries two years older to reflect recent experience.
- The mortality table was updated to the PubG-2010 General mortality tables projected generationally with MP-2020 to reflect the most recently published tables.
- The withdrawal table adjustment factor was reduced from 50% to 30% based on recent experience to reflect lower turnover.
- Retirement rates were updated based on recent retiree experience to reflect later retirements.
- The assumed payment form for future NDPERS retirees on or after early retirement eligibility was updated to: 80% elect a life annuity and 20% elect a 100% joint & survivor annuity. Prior to early retirement eligibility, we assume that 50% elect a lump sum and 50% choose a deferred annuity according to the election percentages above.
- Expected expenses are now rounded to nearest \$1,000 for simplification.

2019

Changes of assumptions:

- None

2018

Changes of assumptions:

- The mortality improvement scale was updated from MP-2017 to MP-2018 to reflect recently published longevity assumptions.
- The inflation assumption was updated from 2.75% to 2.50% based on updated historical analysis of inflation rates and forward-looking market expectations.

2017

Changes of assumptions:

- The mortality improvement scale was updated from MP-2016 to MP-2017 to reflect recently published longevity assumptions.

2016

Changes of assumptions:

- The mortality improvement scale was updated from MP-2015 to MP-2016 to reflect recently published longevity assumptions.
- Salary scale was changed from 3.0% to 2.5% based on the City's pay grade/step scale and historical experience for active members currently earning benefits in the plan.
- Retirement rates were updated based on recent retiree experience.

2015

Changes of assumptions:

- The discount rate changed from 7.50% to 7.25% to reflect an updated expected asset return assumption.
- The expected long-term rate of return on assets changes from 7.50% to 7.25% to reflect updated capital market assumptions.
- Mortality was updated from the RP-2014 no-collar, annuitant/non-annuitant tables with projection scale MP-2014 to the adjusted RP-2014 table with MP-2015 projection scale to reflect the most recently published table.
- The withdrawal assumption was updated to the SOA 2003 small plan age-based table with a 50% reduction factor. This change was made to reflect the trend of NDPERS employees terminating prior to early retirement eligibility and electing a lump sum payment.
- The pre-retirement form of payment assumption for NDPERS transfers was updated to reflect both lump sum and annuity elections. This change was made to reflect the trend of NDPERS employees terminating prior to early retirement eligibility and electing a lump sum payment.
